Alliance Women Greatly Interested In Red Cross

The women of Alliance have responded nobly to the call of the Red

Cross for volunteer workers to aid the Alliance chapter in securing its full quota of knitted articles for the soldiers now in France and those yet to go. Knitting days see many at the local Red Cross headquarters in the Masonic Temple building. Many come to headquarters to work while others prefer doing their work at home. Many children are said to be learning to knit, as well as many grownups. It is surprising how many women of mature age there are who are just learning to knit and who are contributing their first efforts to Uncle Sam. The beginners, of course, are working under supervision so that the least amount of both time and yarn is wasted.

There is still a demand for more knitters. The call is issued to every woman and girl to take an active part in the work. Social affairs are taking the form of Red Cross Kensingtons and every normal activity is being utilized, it seems, to in some way prove of material benefit to the Red Cross and Uncle Sam, while at the same time providing the usual diversion.

Those who have not as yet taken up knitting and who desire to do so should get in touch with the local Red Cross headquarters and be assigned some specific work. Those who do not now know how to knit will be provided with the opportunity of learning.

The Alliance chapter has been provided with a supply of Red Cross circulars containing full information on how to knit eight standardized articles, namely—sleeveless sweaters, mufflers, helmets, socks, wristlets, wash cloths, bed socks and bottle covers. It is absolutely necessary that full number of knitted articles required be forwarded to France as soon as possible. Uncle Sam's boys are now in France and more are going. The severity of winter on the battlefields and a rising tuberculosis rate to combat, demand that the warm articles reach France before Thanksgiving time.

For the benefit of those interested your Herald herewith prints the official Red Cross instructions for knitting a sleeveless sweater for a soldier:

Get two and a half hanks of yarn. Also one pair of Red Cross needles No. 5, cast on 80 stitches. Knit 2, purl 2 stitches for four inches. Knit plain until sweater measures 25 inches. Knit 28 stitches, bind off 24 stitches for neck, loose. Knit 28 stitches. Knit 7 ridges on each shoulder, cast on 24 stitches. Knit plain for 21 inches. Purl 2, knit 2 stitches for four inches. Se up sides leaving nine inches for arm holes.

Society Adopts The Bean Sandwich

Society has accepted the bean sandwich. No longer is the humble bean an outcast. An Alliance matron, recently returned from Denver, is authority for the statement that in that city society is serving the bean sandwich at luncheons. It is right that the bean so come into its own, especially in this part of the west where this year thousands of acres of beans are being raised where before but one bushel was grown.

In western Nebraska and in Box Butte county a large quantity of pinto beans were grown this year. The pinto bean, it is stated, is being served in the soldiers' rations and is fast becoming popular. However, housewives, must understand how to cook the pinto bean as it is really more or less of an art to cook the pinto bean just right. The University of Nebraska Extension Service has issued a bulletin telling how to bake pinto beans. Alliance housewives will welcome this information.

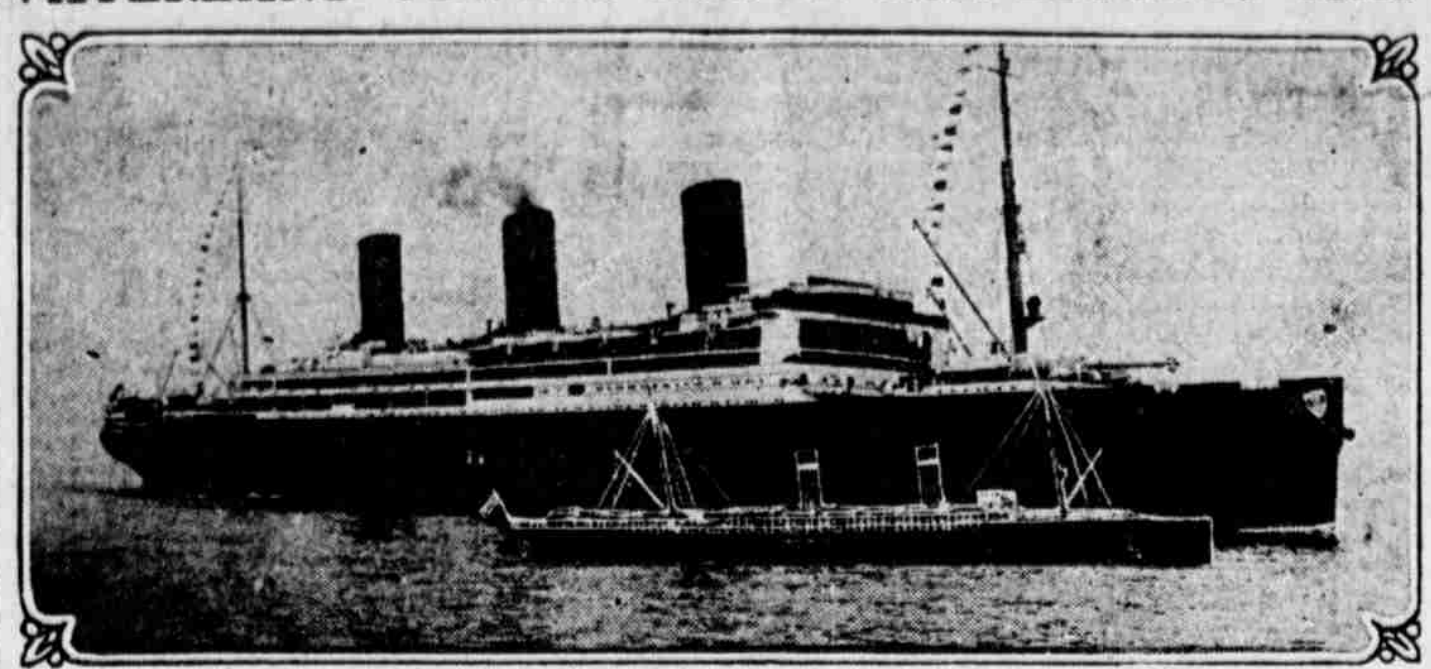

A delicious dish of baked beans may be made by using pinto beans as follows: Soak two cupfuls over night, and in the morning add one-half teaspoonful of soda and enough fresh water to cover them, and put them over the fire. As soon as they come to a boil, drain and pour cold water over them, rinsing thoroughly. This gives them a firmness which keeps them from getting mushy. Lay a thin slice of salt pork in the bottom of the pan. Add a small chopped onion to the beans, and pour all into a pan or baking dish with the slice of pork or bacon at the bottom. Take a few more slices of pork or bacon and press them down into the beans. Add a little salt, a pinch of ground mustard, and a tablespoonful of molasses. Cover with water, set in a slow oven, and bake 6 to 8 hours. As the water boils away, add more, being sure it is always boiling as the addition of cold water will retard the cooking. They will be a beautiful brown when cooked, moist and tender. Try this and you will make the discovery that you never before tasted real baked beans.

DO YOU know of anyone who is old enough to read, who has not seen that sign at a railroad crossing?

If everyone has seen it at some time or other, then why doesn't the railroad let the sign rot away? Why does the railroad company continue to keep those signs at every crossing?

Maybe you think, Mr. Merchant, "Most everybody knows my store, I don't have to advertise."

Your store and your goods need more advertising than the railroads need to do to warn people to "Look Out for the Cars."

Nothing is ever completed in the advertising world.

The Department Stores are a very good example—they are continually advertising—and they are continually doing a good business.

If it pays to run a few ads round about Christmas time, it certainly will pay you to run advertisements about all the time.

It's just business, that's all, to ADVERTISE IN THIS PAPER
